SUMMARY

Front-End Web Developer with nearly 4 years of experience building and scaling production-grade fintech and web applications, specializing in high-performance UI architecture, seamless REST API integration, and conversion-ready user interfaces.

WORK EXPERIENCE

Front-End Developer , Pisopay.com Inc   **May 2022 - Present**

- Implemented and customized production-ready React UI using modern component libraries and TypeScript, translating Figma designs into pixel-accurate, consistent interfaces.
- Integrated REST APIs handling 50-150+ daily transactions, collaborating with backend engineers to deliver secure and reliable payment workflows.
- Optimized frontend performance, reducing load times by ~5–10% and minimizing unnecessary component re-renders, resulting in smoother user experiences.
- Built fully responsive interfaces covering mobile, tablet, and desktop viewports, enhancing usability and accessibility across all devices.
- Maintained clean, reusable UI components and followed best practices to support long-term scalability and maintainability of the codebase.
- Supported frontend deployment processes in GitLab CI/CD by managing environment variables and configuration overrides.

EDUCATION

Bachelor of Science in Information System   **August 2016 – May 2021**
Villagers Montessori College

- Capstone: "Online Hotel Reservation and Management".
